

QUALITY REGULATORY POLICY

2023-2025

- We are international key actor in the **consumer and medical care** fields. We aim at providing patients and consumers with the best solutions and services.

- We manufacture, commercialize and distribute healthcare products in compliance with **international regulations**, and **fulfilling the market quality expectations**.

- Within the Urgo community, we are acting as **business partners**. We encourage solidarity, communication and assertiveness for an efficient quality.

- We are focused on the **customer community** (clients, healthcare professionals, patients & consumers) satisfaction. As such, products' safety is a key priority for us.

- We promote **quality best practices for innovation and process efficiency**. We encourage **continuous improvement**, working as team players.

- We have high **ethical standards** for ourselves, and expect the same from our partners.
